

# Testimonials . . .

“My husband, my sisters and I would like to thank you all for helping us through a very difficult time. My mother’s fall was sudden and unexpected, and we were not prepared for what followed. The thought of taking care of her at home by ourselves both terrified and overwhelmed us, but you came into our lives like a team of angels and took on our burden as if it were your own. You made the impossible possible and helped turn something that should have been tragic and sad into something peaceful and beautiful. You made my mother feel very special everyday and you helped take away her fear of the unknown. For us, who remain, you will all be remembered in a most special way.”

“No matter how many times I say thank you, it will never be enough. Your staff were so very kind and so sweet and caring to Jerry and to the rest of his family. A special thanks to Tabatha, Stacey, Amber, Jakie and so many others who came to our home or that I talked to on the phone. Thanks, again.”

“Thank you for your compassionate care for my dad and our whole family. Being there with us, helping us, teaching us how to care for him and explaining what was probably going to happen really helped us. The way you came in so supportive and nonjudgmental and offered anything we needed was just awesome. We prayed for you all at his funeral and will continue to do so.”

“I had to wait a while before I could write to you all. Today would have been my mom’s 82nd birthday. But she is resting gently in the arms of Jesus. Special thank you’s go out to: Lisa Kay, Cindy, Miss Ruby and Jennifer. You were my rock in the midst of a possible storm. Special thank you’s go out to each and every nurse, social workers and pastors who passed through my life over the last 2 years. I have always respected Hospice staff members. But having the pleasure of first-hand knowledge of the way you are with patients, family and caregivers brings many joyful thoughts. Thank you so very much.”

“I want to sincerely thank you, each and every one, for your love and prayers for Mom and me. I wish I could hug each and every one of you. As far as I personally am concerned, I feel as though I had an extended family in a time where I was pretty much on my own. I am quite sure Mom was aware that you all were a ‘God Sent’ group, sent especially for us. Love you all.”

“We don’t know where to start or where to end all the Thank You’s that you all deserve; so you’re going to have to settle for one huge, heartfelt one from the entire family! You all are an amazing team! It seemed that one of you was always at North Florida Rehab checking the status of our ‘Very Special Grandmother,’ making sure she was as comfortable as possible and had as much quality of life as one can have at 100 years of age. We appreciate everything you did, from answering our questions or just talking with us -- getting to know all of us, sitting with Grandmother at meals or overnight, helping her with her makeup and hair, and acting as a liaison between her nurses and her doctor -- just to name a few. What would we have done without you? We can only image! You all and the Hospice organization are priceless -- definitely worth more than we could possibly repay! So please relay our ‘Thanks’ and know that Hospice will always have a special place in our hearts. Grandmother was in caring hands!”

“I want to express my thanks to one and all. From the beginning to the end of John’s time, I received encouragement, help, explanations, concern regarding my husband. It’s been a rough 3 years. I do not know if I could have done it without all of you. Excellent staff. Thank you so much again.”

“Our family is so grateful for the wonderful care and compassion that you all gave to our mother. We have peace in knowing that she did not suffer and passed peacefully under your care. Thank you so much.”

“We appreciate so very much all that you did to care for Rodger these past 3 months. You were all so kind, gentle and patient with him. Matt and I appreciate your support physically, emotionally and spiritually. You helped make our lives less burdensome with Rodger’s care, and more of a joy.”

“At a time of sadness and then loss, it is always a comfort to know our mom received loving and professional attention. Since this was our first experience with Hospice, we didn’t know what to expect. Your organization and especially the women we met provided a caring atmosphere for us all. Thank you!”
