

Testimonials . . .

“I can’t tell you how much you have meant to us during Dad’s sickness. Our family thanks you so much for being there for me, mental support and all the advice you gave us how to deal with Dad and all of his problems and mine. Love you guys and never forget what you have done for us. I would not have made it if not for you all. Thanks for your support and love.”

“With hearts full of gratitude and appreciation, we THANK you for the exceptional care, compassion and humanity you gave to our mother and to us as well. You demonstrated such kindness as you expertly evaluated and examined her every time. Your explanations and advice as her illness progressed was honest and reassuring to her and helped her keep things in perspective. We especially appreciated your last visit – your promptness and presence reassured us tremendously. We can only pray that you will be blessed beyond measure as you have blessed us! Thank you again for your tender care and expertise.”

“Thank you so much for all of the kindness extended to mom and our family during this difficult time. We all felt loved and cared for. You made this moment in life so much easier just by sharing yourselves. We will be forever grateful. ”

“The entire staff of Hospice of Citrus and the Nature Coast has shown an incredible amount of compassion and sensitivity over the last weeks as our family dealt with the passing of my husband, Walter. Of significant note are nurses Cliff, Ann, Valerie, Pam and Hope and their professionalism and expertise during this difficult time for our family. Hope and Valerie were cheerful, knowledgeable and warm in their demeanor, and Walt liked them both. They spent several nights by his side, while reassuring our family and providing helpful insights. Ann and Pam were ‘hands on’ giving back rubs, making his bed clean and comfortable, and helping him clean his teeth and refreshing him with soap and water. He enjoyed their ministering very much. Cliff, in a word, fantastic. He was quick witted, friendly and had a gentle nature that provided Walt with a sense of comfort. Cliff was innovative and attentive to Walt’s comfort level and always took care to insure Walt’s dignity was considered. Cliff stayed after his shift to make sure details were appropriately addressed at the end. Cliff and Ann together worked to insure Walt was properly groomed and in his military uniform. And finally, Paul, the RN lead for the team: he showed a level of caring and honesty that was refreshing and welcome. His focus on the well-being of everyone went above and beyond. He responded with honest, forthright answers and delivered it all with a sense of compassionate strength that put our family at ease. The Nature Coast community and, most certainly, Homosassa are truly blessed to have these people and this hospice in their community.”

“My husband, my sisters and I would like to thank you all for helping us through a very difficult time. My mother’s fall was sudden and unexpected, and we were not prepared for what followed. The thought of taking care of her at home by ourselves both terrified and overwhelmed us, but you came into our lives like a team of angels and took on our burden as if it were your own. You made the impossible, possible and helped turn something that should have been tragic and sad into something peaceful and beautiful. You made my mother feel very special every day and you helped take away her fear of the unknown. For us, who remain, you will all be remembered in a most special way.”

“I don’t have the words to express how thankful we are for all of you. Just knowing that you were all there for us was a ‘Blessing.’ We couldn’t have done it without you.”

“Our family would like to thank you for the wonderful care you provided for Alma. It was always her wish that she remain in her home, and you made that possible for her. Everyone from Hospice was so kind to Alma – and to us! In the first few weeks, Paul, Jessica and Melanie carefully assessed her condition and set up her health care. When we had questions, they were quickly answered. When Alma’s condition declined, each of the continuous care nurses provided excellent care for her and kept her calm and comfortable. They sat by her bedside with us, reassuring her and us. We are so thankful for Hospice. You were truly a blessing to our family.”

“Thank you for your kind words and for the tender loving care that you gave my husband. It was such a blessing to have you in our home, and I will always remember, with thanksgiving, the value of your presence.”

“There are no words that can express how much I appreciate the wonderful care you all have given to Alice. Because of your care and love, you have given me more time to enjoy Alice on Earth. Everyone at Hospice House goes out of their way to make it easier to adjust to what is in God’s hands. I know I could never do the job you do.”

“We want to express our appreciation for all of the assistance we have received from Hospice. Everyone that has cared for my father in the past months has monumentally made his passing more comfortable for him and easier for us to deal with. We thank you so much for that gift.”

“I can’t begin to thank you enough for your guidance and knowledge in leading me through my grief journey. You have been so supportive and encouraging in the past year, when I had few walking my journey with me. I so appreciate your compassion and understanding, and will be forever grateful for your help.”

“Thank you, two little words can never begin to express my gratitude for all you did for my husband. For 111 days you cared for his physical needs. For 111 days you showed him compassion. For 111 days you were my shoulder, you allowed me the time to love my husband at home and be with him when the time came to say goodbye. So, you see, thank you will never tell you what you mean to me.”
